Rustic Console Table Carpenter's Workbench, France circa 1860-80

It is the years of constant use revealed in every ding, gouge, stain and scratch that enrich the character of this impressive carpenters' workbench from France. Please examine the close up photos to appreciate the aged patina, joints and old hardware. It is the extensive wear and distress that creates the depth of character in this console.

This workbench has one long vice along the left leg which was a traditional feature. In the photo of the top, notice the multiple holes that served a purpose for the carpenter who originally used it, likely to attach other tools and hold in place what he was working on.

The top of this table is 22.25" deep, creating a narrow console with a great deal of visual impact.

Depth to wood leg: 24.5"

Depth to metal vice on leg: 27"

This worktable has been restored and waxed; it is strong, stable, ready to be used and enjoyed. Workbenches like this often serve as console tables in today's modern home.

With over 37 years of experience selling European antiques, our brick-and-mortar storefront, Round Top Ranch Antiques (located in Texas) offers one of the largest curated selections in the nation with over fifteen thousand square feet of inventory to choose from.
