## 19th Century Swedish Blue Side Table with Two Drawers

19th century Swedish side table with two drawers, crafted in pine. The table retains a lovely blue painted finish that is old, though likely not original to the piece. It stands on long, slender tapered and fluted legs, while simple fluted details frame the two slender drawers. The drawers open with brass ring pulls, and the interiors show a contrasting distressed pink red paint that adds further character. The tabletop has softly curved corners, contributing to the graceful country look of the piece. Typical age related cracks are seen along the top, though they do not impact function. A minor age related separation is seen along the back panel. Restored strong, stable, and ready to use. A delightful small blue country piece with warmth and charm. Please refer to professional photos for clear understanding of color, condition, and details; photo lighting, individual monitor display and home lighting all impact how item is viewed. Photos are part of item description, please ask questions or request additional photos of specific areas if needed.
