19th Century Swedish Pine Drop Leaf Pedestal Dining Table

19th century Swedish drop leaf table, crafted in pine. The table features a dramatic carved pedestal base with four legs, and the base is painted in a faux brown wood finish with black and burnished bronze accents. Its unique drop leaf construction allows the table to shift in scale depending on use. When closed, the table measures 50.25 inches wide by 39.5 inches deep. When open, it measures 69 inches wide by 57.25 inches deep. Restored strong, stable, and ready to use. Please note age-related separation of planks in the top measuring approximately one quarter inch, along with typical scratches, gouges, stains, and minor cracks throughout top and base, all consistent with age and use. A fun table with a lot of visual drama in the base. Please refer to professional photos for clear understanding of color, condition, and details; photo lighting, individual monitor display and home lighting all impact how item is viewed. Photos are part of item description, please ask questions or request additional photos of specific areas if needed.
