## mirror

19th-century Swedish trumeau mirror crafted in wood with a gold gilt finish set against a blue painted background. The mirror features applied carved details throughout, including an elaborate crown that adds height and architectural presence. The combination of gilt surfaces and painted blue background creates strong contrast and visual depth. Crazing is visible in the mirror plate, consistent with age (albeit not as old as the mirror frame), and does not detract from the overall beauty or function of the piece. The mirror is tall and elegant in proportion, making it well suited for placement above a mantel, console, or as a statement wall mirror.

The mirror has been restored, is strong and stable, and is ready to hang and enjoy. Examine photos to understand the distress and nicks/loss of paint especially along edges, typical for its age and use. Please refer to professional photos for clear understanding of color, condition, and details; photo lighting, individual monitor display and home lighting all impact how item is viewed. Photos are part of item description, please ask questions or request additional photos of specific areas if needed.
