19th Century Danish Pine Curved Chest of Three Drawers

Danish chest of three drawers, crafted in pine with a warm waxed finish that enhances the natural color and character of the wood. The chest has a gently concave front with three large curved drawers, creating a graceful silhouette within the simple Scandinavian form. To create the curve, you will see vertical "seams" where the sections of drawer fronts fit together. Each drawer has two hanging brass pulls and provides generous storage. Front bun feet support the low profile and complement the understated design. Several age related nicks are visible along the top, some of which were filled at an earlier point in time. Minor scratches and cracks are also present, including a crack toward the back where an old knot in the pine has separated. These signs of age contribute to the natural character of the chest without affecting its function. Restored, stable, and ready to use. Please refer to professional photos for clear understanding of color, condition, and details; photo lighting, individual monitor display and home lighting all impact how item is viewed. Photos are part of item description, please ask questions or request additional photos of specific areas if needed.

With over 37 years of experience importing and selling European antiques, our brick-and-mortar storefront, Round Top Ranch Antiques (located in Texas), offers one of the largest curated selections in the nation with more than thirty-five thousand square feet of inventory to explore. We welcome you to visit us in person or browse our collection online to find the perfect addition to your home or workspace.
