Antique Large White Painted Oval Farm Table Work Table from Sweden

This large oval table rests on a trestle base with four sides, indicating it may have served as a work table in the early 1800's. It is pine, but was given a white painted finish fitting its Swedish roots at some point. The painted finish has been distressed along the edges, legs drawers and feet which bring dimension to the finish while adding to the true age and vintage character of this handsome table which may also serve as a dramatic console behind a large sofa or sectional in a great room. This table is being sold in as-is, used condition how we found it in Europe. Please inquire with any questions you may have regarding this or other items in our inventory.
