## Rustic Plank Wood Vintage Console Table

It is the knots, gnarls and old cracks that create the character in this rustic coffee table. The heft of the slab wood top draws one to it, but it is the deep gouges, marks, cracks and distress that make it so unique. Originally, this was likely a work table for a butcher or carpenter and now reveals generations of use. The thick slab top is 20" deep; the listed dimension of 20.5" is at the deepest point which is the splay legs. Iron rods were added at some point to reinforce the legs. While the top is not perfectly even it is level enough to set wine glasses upon it. The table has been restored and waxed, so it is strong, stable and ready for use.
