Rustic Antique Small Work Table Side Table

This rustic side table was used as a work table for years, as seen in the deep gouges, oil stains and distress of the top. The two heavy planks that comprise the top show expected age-related separation and are slightly bowed but one can still set glasses safely upon it. The iron bolts and heavy trestle base add to the industrial and work feel of this table, which would make a fun side table or small coffee bar in a smaller studio space. This table is solid, stable and ready to be used; age-related cracks add to the rustic appeal and do not impact the function of the table itself.
