## Vintage Rustic Work Table Slab Wood Coffee Table With Splay Legs

The dark, aged patina is inviting in this old butchers work table that now serves as a coffee table. Every scrape, deep gouge, stain and crack acquired with well over 100 years of use have loaded it with character. Whether you are looking for an authentic vintage table in an urban farmhouse or want to add an organic touch to a contemporary loft, this one of a kind table will draw attention and comments. The cut out section along one side is likely where a tool or vice was located. The wood has been waxed bringing out a deep patina and rests upon four original hand-carved slanted legs. Restored, strong and stable, this table is ready for daily use. While there is a slight age-related bow to the top, it is level enough to set glasses upon it.
