Long Antique Bleached Oak Sideboard Buffet from France

This long sideboard shows off its French style in the carved panels and lovely details along the skirt and drawers. The bleached finish gives it a fresh and welcoming look for today's modern home which will serve well as a buffet or long entryway statement piece. Three drawers in the center are balanced by cabinet doors on each side; the oak doors have a slightly darker hue providing a bit of contrast. Typical separation of planks, minor cracks throughout, nicks, etc. are commensurate with age. Please enlarge photos for clear understanding including some staining /discoloration on the top. Note the "groove" along the back top which indicated this may have served to hold an upper shelf or position dishes for display. This sideboard is solid/stable for use but has not been restored so signs of wear/age are expected.
