Antique Farm Dining Kitchen Table from France

This old table may have started life as a work table, likely on a farm in the French countryside. Notice how deeply aged the wood is, revealed in the rich, dark patina of the wood. The solid legs, central stretcher and wood pegs (instead of nails) kept it strong and durable throughout its long and useful life. The old repairs, gouges, cracks and age related separation of planks are all indicators of the generations of use this wonderful table received. This French farm table has not been restored but is strong /stable and ready for use; how we found it in Europe.
