Antique Narrow Single Door Pine Cabinet from Denmark

This single door cabinet radiates European country charm with its warm natural pine and lovely paneled door. The abbreviated height and narrow width offer versatility and style. In the upper interior section you will notice the original carved hanging pegs on both left and right sides above the top shelf. What appear to be upper and lower drawers are a "false front," they are not functioning drawers and only appear for the look/style. As you examine the interior photos, notice that the bottom shelf is 2 boards which are removeable and reveal hidden storage located below. This unique narrow armoire has been restored and given a wax finish bringing out the warmth of the pine. One key is included for the door. Please take a moment to enlarge the photos and examine the details up close. Solid/functional condition and ready to be used daily.
