Antique Bleached Oak Chest of Drawers from France

This classic French oak chest of drawers has been given new life with a bleached finish which has lightened the dark oak and brings out the lovely details of the paneled drawers and feet. The large double brass pulls make opening the drawers easy. Typical age-related separation along top and drawer bottoms, old cracks and slight warp to top add to the authentic vintage appeal of the chest and does not detract from function in any way. Drawers currently have old red lining paper but can be removed prior to shipping. This traditional French oak chest of 3 drawers has been restored and is ready to place and be used.
