## Antique Pair of Kubbestol Chairs from Norway

A kubbestol is a traditional Scandinavian chair made from a single log. While these unique folk-art chairs can be difficult to locate, a pair makes these a special find. Notice the hand-carved details around the base, gently curved back and traditional /original earth-toned paint. It was a talented craftsman who made this wonderful pair of chairs. The kubbestol was quite common in some districts of Norway from about 1750 to 1960. Both chairs are heavy, solid/stable and level. While they show typical age-related cracks, scratches etc. as seen in photos they remain strong and ready to use. Sold as-is, used condition. Please inquire regarding this or any other items in our inventory.
