Antique White Painted Gustavian Display Cabinet Bookcase from Sweden

This lovely gustavian display cabinet is an exceptional find due to the rare size at just over 6' wide. Notice the extended/carved diamond motif on the long drawers with 2 large brass pulls on each. The decorative trim on the glass doors and dentil molding /carving of the crown add a touch of refinement to the bookcase as well. The interior was painted a contrasting dark red against the exterior white. While the paint is old, it was added later and has been distressed revealing layers beneath which all combine to fit the grace and age of this cabinet. Any scratches, dings, signs of wear are commensurate with age. This cabinet has been restored, is strong/stable and ready for use. Very minor separation of planks in drawer bottoms.
