Antique Pine Chest of Four Drawers, Denmark circa 1880

This lovely pine chest of four drawers has turned columns accenting the central two drawers which are slightly inset creating beautiful visual appeal.

The craftsmanship is also revealed in the curves of the upper drawer and dovetail joints throughout.

Note the natural wax finish that brings out the warmth of the pine.

Restored, this dresser is strong, stable and ready for use.

Drawers function, no key included as brass pulls are used to open lower three drawers and top opens simply by hand (at edges). Any nicks, scratches, cracks, dried up old worm holes or signs of wear reflect the generations of use and do not impact function of this charming pine chest of drawers.

Please refer to professional photos for clear understanding of color, condition and details; photo lighting, individual monitor display and home lighting may all impact how item is viewed.
