Pine Chest of Four Drawers Painted White, Denmark circa 1860-80

Antique pine chest of four drawers, with traditional fluted carved details along side and topped by carved accent medallions flanking the narrow top drawer.
The professionally applied newer white painted finish adds new life to this pine dresser and is slightly distressed to fit the age and grace of this chest.
Restored, strong and functional, this is ready to be used and enjoyed. Drawers function with use of two brass pulls on each.
Any scratches, cracks, dings, or age related separation are reflective of age and do not detract from the beauty nor function of this lovely piece.
Please refer to professional photos for clear understanding of color, condition and details; photo lighting, individual monitor display and home lighting may all impact how item is viewed.
