## Gustavian White Painted Chest of Drawers With Diamond Motif, Sweden circa 1820-40

Gustavian white painted chest of four drawers with upper dentil molding and traditional diamond motif in top two drawer panels. Newer professionally applied layered white painted finish with gray undertones is gently distressed to fit the age and grace of this pine dresser.

Middle drawer currently has divider separating the left and right side. Restored, strong, stable and ready for use. Any scratches, cracks, dings, or age related separation (see side and back photos) are reflective of age and do not detract from the beauty nor function of this lovely piece.

Please refer to professional photos for clear understanding of color, condition and details; photo lighting, individual monitor display and home lighting may all impact how item is viewed.
