Rustic Work Table Console, Hungary circa 1900

The strong appeal of this rustic console table comes from the well worn top reflecting generations of use.

It originally served as a work table, resulting in the worn patina with deep gouges, cracks, scrapes, stains, and old gnarls.

This console table has two runners along the base. There is a ruggedness to the top including aged related separation of the two hefty planks that form the top.

It has been restored so it is strong and stable.
