Free Standing Black Counter Kitchen Island, Denmark circa 1980

This pine kitchen island is a reproduction of grocer's counters seen throughout Denmark during the 1800 to early 1900's. The back is paneled making this cabinet an ideal free standing kitchen island while the open shelving allows for easy access to stored items.

The black painted finish has been distressed, revealing the natural wood below. Condition is strong, stable, and ready to be used and enjoyed. Any scratches, nicks, distress add to the vintage look and feel to the island. Please refer to professional photos for clear understanding of color, condition, and details; photo lighting, individual monitor display and home lighting may all impact how item is viewed.
